Dear colleagues,

We are pleased to inform you that the oncoming XI International Symposium on Explosive Production of New Materials: Science, Technology, Business, and Innovations (EPNM-2012) will be held on May 2–5, 2012 in Strasbourg, France.

The meeting will be organized by Institute of Structural Macrokinetics and Materials Science, Russian Academy of Sciences (ISMAN), Russia and by Institute of Mechanics of Fluids and Solids (IMFS), France with accommodation at one of the hotels in the historical center of Strasbourg.

Information concerning symposium history, scope, etc. you can find at the symposium website <http://www.ism.ac.ru/events/EPNM2012/indexEn.html>.

Important information concerning registration fee, accommodations, etc. will be appear later at the website. The size of registration fee and hotel accommodations will depend on a total number of participants, including accompanying persons.

Please give us know about your intentions as for coming to EPNM-2012 (with- or without report, with- or without accompanying persons) and presentation title as soon as possible.

The Organizing Committee of EPNM-2012 looks forward with a hope to see in Strasbourg the participants of previous Symposia held in Russia, the Netherlands, and Montenegro and also the new members of the rallied international community active in the field.

We will also be much grateful for any financial support of the event from our potential sponsors.

Co-Chairmen of Organizing Committee,

Prof. Yury Gordopolov

Prof. Yves Rémond
